June 2, 2000

Kevin Hawkins
815 Garrison St.
Fremont, Ohio 43420

To Whom It May Concern:

Kevin Hawkins was a patient of mine in need of an arm sling following surgery and has developed and patented his own arm sling, which we have used on other patients and has been markedly more comfortable for the patient's and they are very pleased with it's usage. I would recommend Mr. Hawkins' arm sling to anyone requiring upper extremity immobilization, secondary to it's versatility and comfort.

Sincerely,

George C. Stepanic Jr., D.O.
